

Johnston Park Partnership

Terrence Culbreath, the Mayor of Johnston, SC, is the youngest mayor in the Palmetto State. He radiates enthusiasm for the 2500 people in his hometown in Edgefield County, the heart of peach country.

Mayor Culbreath recently inspired members of the Leadership South Carolina Class of 2018 during an event when he shared his vision for a greenspace and community park for citizens to gather together in fellowship and de-stress, celebrate life moments, and engage in healthy activities. The Mayor is not lacking in ideas, and his town is not lacking in energy or charm, but they are short in funding and resources. The Leadership SC class seized the opportunity to consult, collaborate and lend talents to this little town with a big spirit and passionate leader.

Leadership South Carolina is pleased to be a kickstart partner for the Johnston Citizens Park!
